## Poly Pusher

Imbedded in tough, chemical resistant poly blocks in a variety of configurations, the same bristles that built user loyalty for Zephyr's wood block push brooms and brushes

are now attracting a new fan club. Push broom bristles range from natural palmyra and tampico fibers to polypropylene and other plastics, each best suited for use on certain surfaces—smooth tile or rough concrete, wet or dry, fine or coarse dirt and in some cases, resistant to certain chemical and detergent agents. Zephyr-built poly block counter and pot brushes are also available.

## Fast Finish

Millennium Plus™ is an ultra high-speed floor finish from Intercon Chemical that is the central component in their simple, effective and versatile UHS Floorcare program. Because of its unique polymer technology this finish delivers a "wet look" shine initially, exhibits no hazing during dry down and provides excellent response to UHS burnishing and restoring. Improved dry time reduces "down time" during refinishing operations. Available in a gallon, 5 gallon, 55 gallon containers.

## Eliminate Pet Peeves

Unbelievable!® Pet Urine & Odor Eliminator is a professional strength stain remover, that uses natural enzyme action to safely remove tough pet stains. Odor neutralizing agents penetrate the carpet padding and sub-floor, biologically breaking down organics and eliminating unwanted odors. Anti-resoiling agents leave fibers residue free!
